PROFESSIONAL SUMMARY

Full Stack Developer with solid experience in the .NET ecosystem (C#) and modern web technologies, experienced in the modernization of complex systems, platform integration, and development of distributed architectures, working in corporate and multi-tenant SaaS environments. I also have experience with technologies (Angular, NoSQL/MongoDB Databases) for performance optimization and scalability, in addition to applying good engineering practices (SOLID, Hexagonal Architecture, Dependency Inversion).

ACADEMIC BACKGROUND

Universidade UNA | Bachelor's Degree in Computer Engineering

Expected Completion: December 2026

Instituto Federal de Minas Gerais (IFMG) | Technical Degree in Information Technology

2017 – 2019

PROFESSIONAL EXPERIENCE

Symplicity Brasil | Software Engineer

September 2025 – Present

- Modernization and Critical Module Development: End-to-end development of a high-criticality module (Internship Module), integrating modern and legacy solutions using technologies such as C#, SQL Server, WebForms, AngularJS, and the MVC architectural pattern.
- Technological Innovation and Architecture: Responsible for the introduction, evaluation, and implementation of new technologies in the product architecture, leading the adoption of the modern Angular framework and NoSQL databases (MongoDB) focusing on scalability and performance gain.
- System and API Integration: Conception and development of robust RESTful APIs and WebServices to establish secure and efficient communication between the company's main system and external platforms of large clients.

- Code Quality Culture: Fostering and practical implementation of a quality culture within the team through the development of robust Unit Tests and good development practices (Clean Code).

Main Stack: .NET Core, C#, Angular, MongoDB, SQL Server, WebServices/APIs.

TOTVS S.A | Mid-Level FullStack Software Developer

March 2023 – Present

- Development and maintenance of new web and desktop solutions using C# and .NET for the RM ERP.
- Technical leadership in end-to-end projects, participating in all phases, including specification, development, testing, and delivery to the client.
- Daily work with agile methodologies (Scrum and Kanban) to ensure efficient and high-quality deliveries.
- Optimization of support and maintenance routines, with a focus on Continuous Integration.
- Technologies used: C#, .NET, React, SQL Server, MySQL, Oracle, Entity Framework, Azure, Jira, Git, and TFS.

TOTVS S.A | FullStack Software Development Intern

October 2021 – March 2023

- Collaboration in the development of solutions for the RM ERP, acquiring practical experience in C#, .NET, and web development.
- Active participation in sprint meetings and bug resolution, contributing to the continuous improvement of the products.

Freelance Web Designer

January 2020 – October 2021

- Development and maintenance of websites using HTML, CSS, JavaScript, PHP, WordPress, and React.
- Creation of website and application prototypes (FIGMA), alinhando design e funcionalidade.

TECHNICAL SKILLS

- Languages and Frameworks: C#, .NET, .NET Core, ASP.NET, React, JavaScript, HTML, CSS.
- Databases: SQL Server, MySQL, Oracle.
- Metodologies and Tools: Scrum, Kanban, Git, Jira, Azure, Azure DevOps, TFS, SOLID.
- Cloud: Microsoft Azure.
- Design: Experience in UX/UI and Graphic Design.

CERTIFICATIONS AND COURSES

- Google UX Design Professional Certificate (Coursera)
- EducaTech - Training Tech Leaders and Educators ({reprograma})
- React JS Training (Alura)
- Angular Training (Alura)

ADDITIONAL ACTIVITIES

Basic Excel Notions Instructor (IFMG Campus Ribeirão das Neves)

September 2018

I taught a course for the low-income population, demonstrating communication, leadership, and training skills, complementing curricula and facilitating inclusion into the job market.
